

PRESS/MEDIA INFORMATION

Photographers, journalists, videographers and other accredited media representatives are **welcome to attend** the Open European Taekwon-Do ITF Cup 2026.

All media representatives wishing to access the competition venue and the Field of Play must apply for official Media Accreditation in advance by submitting a request by e-mail and completing the official Media Accreditation Form provided by the Organizing Committee.

Media Accreditation will be provided free of charge for media personnel using the official accommodation arranged for the event.

Media representatives who do not use the official accommodation will be required to pay the applicable accreditation fee, under the same conditions as other event participants (EUR 100).

Independent live streaming or live broadcasting within the competition venue using personal devices, cameras or other equipment is **strictly prohibited**. The official live stream of the competition will be provided exclusively by the Organizing Committee.

The Organizing Committee reserves the right to regulate the number of accredited media personnel permitted on the Field of Play at any given time, as well as to designate specific media corridors, working areas and positions from which photography, filming and other content creation may take place.

These measures are necessary to ensure the safe and uninterrupted operation of the competition. At the same time, the Organizing Committee will make every reasonable effort to provide accredited media teams with **appropriate and professional working conditions** throughout the event.

We warmly welcome media representatives to Poreč and greatly appreciate their contribution to the promotion of the event and to the continued growth and visibility of Taekwon-Do.

The official Media Accreditation Form must be completed and submitted in order to apply for accreditation (available at the AETF website -> events) by **1 December**.

Official AETF media partners are accredited directly by the AETF under their existing agreements.
